

# Electronic Security Seal - (C2K)

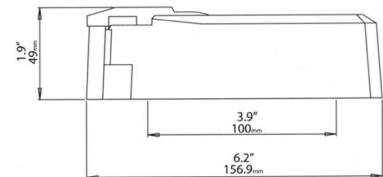

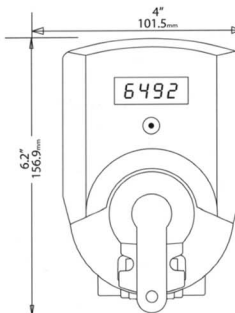

## Applications

- Container Doors
- Trailer Doors

- Truck doors
- Transportation

- Pharmacy
- Railroad Cars

The C2K is a reusable, electronic security seal that permanently mounts to the trailer. The seal is manufactured with a rugged design able to withstand extreme weather conditions. A random 4 digit number is generated with every use, providing a high level of security. This solution eliminates the need to continuously purchase, store and distribute traditional one time use security seals saving you money over the life of the unit.
