

Cable Seal 1.0mm (3/64") - (CBL10)

Applications

- Storage Cabinets
- Trailer Doors

- Cash-In-Transit
- Storage Totes

- Bulk Tankers
- Storage Boxes

The CSS Cable 1.0mm seal is a metal seal available in lengths between 12" and over 100"; comprised of non-preformed galvanized cable which unravels when cut to prevent resealing. The self-locking body requires no installation tools; while the aluminum body ensures high visibility and readability for numbering or printing up to 12 characters.
